FROZEN PREY ANIMALS

Frozen mice and rats in convenient blister package

As proud reptile owner you want what is best for your pet. The frozen prey animals from **Stoffels International** are a safe and nutritious alternative for living prey animals.

Stoffels International B.V. now offers these frozen prey animals in a convenient blister package. High quality prey animals for your pet in an easy and hygienic way!

ADVANTAGES OF OUR FROZEN PREY ANIMALS IN BLISTER:

The prey animals we offer are bred with care in a certified breeding farm and raised on a special vitamin rich diet. Because of this excellent treatment we guarantee prey animals of premium quality.

Due to our extensive range of mice and rats there is always a suitable prey for your reptile. Our prey animals can be used to feed: snakes, lizards, amphibians and other carnivores.

-18°C

The mice and rats are frozen immediately. This way the nutritional values of the prey animals are fully retained. Due to the long storage life you will always have enough prey animals within reach.

OUR SELECTION:

Mice:

- Baby mice 1-2 days (16 x 1,5-2 gr.)
- Baby mice 2-3 days (12 x 2-3 gr.)
